FEATURE PROJECT

From massaging web app

[Live Link](#) [Frontend](#) [Backend](#)

This is a MERN stack web application where anyone can create an account, share their opinions, upvote posts, and comment on others' posts

- Developed a fully responsive forum platform with **JWT authentication**, **user dashboards**, and **admin panel** featuring user management, announcements, and reports.
- Implemented **post creation**, **upvote/downvote system**, **comments**, and **membership-based Gold Badge** with payment integration.
- Integrated **TanStack Query**, **secure environment variables**, and **pagination** for optimized performance and scalability

Education / Course Management

This Course Management System allows users to browse, enroll in, and manage courses easily through a secure login system. Users can view enrolled courses, track progress, and enjoy a smooth, responsive experience with real-time updates.

- Built a **secure course platform** with **JWT auth** and protected routes.
- Added **CRUD**, **Axios**, and **MongoDB** for real-time management.
- Included **limited seats** and **enrollment tracking** for better UX.
